

Wear your heart on your sleeve – or your hat, or your belt or appliquéd to your bag. It’s your choice with this repeatable pattern. To add length, just finish the pattern once and then go right back to the beginning and start again with the first row. Each repeat adds approximately 1.25” to the piece. Repeat five times for a bracelet 6.25” long. Bead counts and totals shown below are for one repeat of the pattern.

Happy Beading!

**Beads required:**

**Word Bead Map**

**Beading notes:**

For ease of beading, rows on the Word bead map are reversed every other row. This allows you to bead down a row, flip over your work, and bead back while still reading each row on the chart from left to right.
